Professional Summary

Results-driven Frontend Engineer with 3+ years of experience building scalable and performant web applications using React.js, Next.js, and TypeScript. Passionate about clean code, reusable components, and optimized UI/UX experiences. Currently leading frontend at Scripto (early-stage startup), delivering end-to-end solutions and collaborating across design, backend, and deployment. Also experienced in mobile development, backend, and DevOps through self-driven projects, with a strong product mindset and focus on delivery excellence.

Education

Damascus University
Applied Science – Computer Technologies
2019 – Incomplete by choice

Language

- **English:** Intermediate
- **Arabic:** Native

Skills

Frontend

- React JS
- Next js
- JavaScript
- TypeScript
- Tailwind css
- Three js
- HTML, CSS3

State Managements

- Redux
- React Query
- Context API

UI Libraries

- Radix UI , Shadcn UI
- Framer Motion

Backend (Project level)

- Node js
- Express js
- Nest js
- Prisma
- GraphQL
- Firebase
- Authentication
- PostgreSQL
- Prisma
- Rest API

Mobile

- React Native
- Expo
- Mobile-first Development

Tooling

- Vite
- Postman
- GitHub
- Webpack

Devops

- Docker
- Vercel
- AWS (Basic)
- CI/CD

Others

- Google Analytics
- Sentry
- Stripe
- Next (i18n)

Experience

Lead Frontend Engineer

Scripto (Early-stage Startup) | May 2025 – Present

- Led frontend architecture and development using Next.js, TypeScript, and Tailwind CSS.
- Built scalable and accessible UI components with Radix UI and Shadcn/ui.
- Integrated backend services using Node.js, Prisma, GraphQL, and Stripe.
- Managed deployments with Docker, Vercel, and AWS (basic).
- Implemented analytics and monitoring via Google Analytics and Sentry.
- Enabled internationalization (i18n) to support multiple languages and regions.
- Collaborated with designers and backend developers to deliver full product experiences.

Frontend Developer (Freelance)

Remote / Self-Employed | Jan 2024 – Apr 2025

- Delivered production-ready websites and apps using React.js and Next.js.
- Focused on performance optimization, accessibility, and responsive design.
- Applied state management via Redux and React Hook Form.
- Collaborated closely with clients and designers to translate specs into working products.

Frontend Developer (React js)

Unifi Solutions | May 2023 – Dec 2023

- Created efficient and effective software solutions to meet client requirements and enhance user experience.
- Built and maintained user interfaces using React.js (MUI), ensuring a seamless and intuitive user experience.
- Improved website performance and speed by optimizing code and implementing best practices.
- Created comprehensive documentation for codebases.
- Worked closely with designers, back-end developers, and project managers.

Junior Web Developer (Freelancer)

Remote / Project-based | Mar 2022 – May 2023

- Built responsive web applications for small clients using React.js and CSS frameworks.
- Gained experience in real-world development cycles and remote team collaboration.
